

Transition of EU cities towards a new concept of Smart Life and Economy

3 Lighthouse Cities • 3 Follower Cities • 27 Partners • 6 Countries

The mySMARTLife Concept

mySMARTLife Objectives:

- Transforming current cities into more sustainable places where smart people and a smart economy become reality.
- Making cities more environmentally friendly by reducing CO₂ emissions and increasing the use of renewable energy sources.
- Making cities more inclusive and allowing a high quality of life.
- Involving citizens in the development of an integrated urban transformation strategy, which is easily transferable to other cities.
- Implementing more than 150 actions in the three lighthouse cities of Nantes, Hamburg and Helsinki.
- Passing on experiences to the three follower cities (Bydgoszcz, Rijeka and Palencia) as well as inviting other European cities to join the mySMARTLife cities network to share their experience.
